

LISA DANIEL RESUME

Painting & showing my work throughout the Northwest region and beyond for over 3 decades, I have work in businesses and private collections alike. I have been in board positions with various art projects, consulted and collaborated artistically with art events. Currently, I am a Public Art Commissioner for the City of Fife, serving a second 3-year term.

My paintings are large, organically abstract paintings of acrylic and gel. I pour, direct & manipulate in multiple layers of unusual combinations of materials to create texture, depth, and transparency. My studio is open by appointment. I accept commissions, have a leasing program, and welcome all inquiries, comments, and questions.
